

**Inciner8 donated a state of the art waste management system worth €60,000.00 to Croatia. The minister of Agriculture Mr. Tihomir Jakovina thanked Business Development Manager, Mr. Nikola Vujec in Zagreb.**

Rapid deployment and operation are of paramount importance in these situations as it helps in the containment of any disease outbreaks. This installation was complete in one day with the help of the Military Police in the Eastern municipality of Drenovci and was in operation a few hours after that.

Bio-security is a modern day challenge faced by all. We can work with you to overcome your concerns.

“I would like to extend my deepest sympathies on behalf of Inciner8 to all of the people in the Balkans that were affected by this tragedy. The environmental fallout has been severe; we have received reports of an estimated one million kilograms of animal carcasses in need of emergency disposal.”
